

STATE PROCUREMENT OFFICE '11 AUG 17 A9:20
NOTICE & REQUEST FOR SOLE SOURCE

STATE PROCUREMENT OFFICE
STATE OF HAWAII

TO: Chief Procurement Officer

FROM: DOT/Airports *lw*
Name of Requesting Department

Pursuant to HRS §103D-306, and Subchapter 9, HAR Chapter 3-122, the Department requests sole source approval to purchase the following:

1. Describe the goods, services, or construction to be procured.

Vehicle fueling antennae, vehicle identification boxes, site controllers, and other associated parts for Asset Works automated refueling system. Software license renewal, maintenance and support services.

2. Vendor/Contractor Name: Asset Works

3. Amount of Request:

\$ \$60,000.00

4. Term of contract (shall not exceed 12 months), if applicable:

From: 11/01/2011 To: 10/31/2012

5. Prior Sole Source Ref No.:

11-018-B

6. Features: Describe in detail the unique features, characteristics, or capabilities of the goods, services or construction.

The vehicle identification boxes, site controllers, antennae, and other associated parts are designed to work with the installed Asset Works Fuel Focus system. The parts required by the system are only made for this one vendor. Other vendors parts do not fit, do not operate on the same frequencies, or are not recognized by this system's existing hardware. Asset Works does not sub-contract or assign other computer companies to perform maintenance services, assistance, or licensing permissions for the software.

7. Essential features: Describe in detail how the unique features, characteristics, or capabilities of the goods, services, or construction are essential for the department to accomplish its work.

This system automates the recording of fuel transaction so Airports does not need to station an individual next to the fuel pumps 24/7 to provide fueling assistance and record the transaction details. The transaction details are automatically exported from the fuel island site controller to the Fleet software application with no manual input/interaction. The Fleet Management software records all fuel transactions mated with fuel costs, operator, vehicle. The automotive mechanics use the Fleet Management software to enter all repairs, parts, and other costs associated with maintaining/repairing Airports vehicles. Comprehensive reports are now available within one minute of request (JVs, fuel history, repairs, etc.)

8. Describe the efforts and results in determining that this is the only vendor/contractor who can provide the goods, services or construction.

Original hardware/software provided through Fleet Management System and fuel pump upgrade contract that was solicited via IFB, CO1803-33, #57485. Asset Works does not subcontract support or license other computer companies to provide support, services, or parts for the system. Alternate systems exist, but require manual transfer of information between that system and Asset Works which may involve data loss or errors. Additionally, other systems are also proprietary, so parts are not interchangeable.

9. Alternate source. Describe the other possible sources for the goods, services, or construction that were investigated but did not meet the department's needs.

Coencorp Fleet Management System, EJ Ward, Manager Plus, Etorus, Fuel Force, P Fleet (formerly Plavan.) Each system is proprietary. Assetworks is a combined system (formerly GasBoy, Maximus) that was purchased and married together to work seamlessly from fuel receipt/issuance to reporting, including billing, asset management, parts management, and all things related to a vehicles life. It includes shop management tools such as employee managment, tools, bay, etc. No other system is as all inclusive as this one. Additionally, UH, BWS, MCBH, and HPD use this system.

10. Identify the primary individual(s) who is knowledgeable about this request, who will conduct and manage this process, and has 1) appropriate written delegated procurement authority; and 2) completed mandatory training.

(Type over "example" and delete cells not used.)

Name of Department Personnel	Division/Agency	Phone Number	e-mail address
Christopher Murphy <i>CM</i>	DOT/Airports	836-6487	christopher.murphy@hawaii.gov

Department shall ensure adherence to applicable administrative and statutory requirements, including HAR Chapter 3-122, Subchapter 15, Cost or Price Data if required.

All requirements/approvals and internal controls for this expenditure is the responsibility of the department.

I certify that the information provided is to the best of my knowledge, true and correct.
